Unique, Well Diversified, Fully Integrated Agri Value Chain Business

Hi-Tech Agri

- Drip & Sprinkler Precision Farming Systems, Advisory, Climate Smart Solutions.
- Solar Agri Pump
- Large Tissue Culture plant capacity for Banana, Pomegranate, Sweet Orange and others
- Aeroponic & Hydroponic technology for Air Aloo™
- Well geographically spread – over 4,000 dealers / distributors across India
- World class manufacturing facilities
- Strong in-house R&D base

Plastic

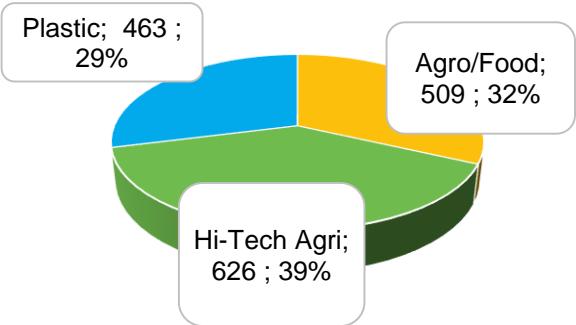

- PVC Pipes, fittings, Polyethylene Pipes Turnkey Projects, PVC Sheets
- Catering to Agricultural, Industrial & Infrastructural customer base
- Manufacturing in India, UK, USA & Europe.
- Forayed into urban markets by introducing plumbing systems
- Plastic Sheet manufacturing business in USA & UK to serve local customers

Agro Processing

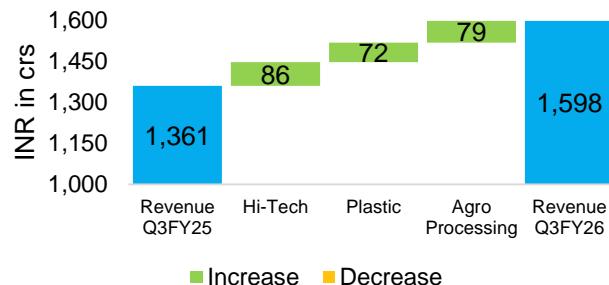

- Fruit pulps, concentrates, vegetable dehydrations, spice processing, etc.
- Global leaders in Mango processing and Onion & Garlic dehydration
- Catering to top global food companies
- Manufacturing in India, UK, USA and Turkey
- State of Art Beverages Bottling Plant with 600/800 BPM capacity.

Business Overview : Q3 FY26

Hi-Tech Division

- The Hi-Tech Agri division recorded 15.9% year-on-year revenue growth, driven primarily by continued traction in Solar Agri Pumps and strong retail demand. This growth was achieved despite softer exports, which were impacted by global tariff changes and broader international headwinds.

- EBITDA margins remained strong at 19%.

- Significant improvement in net working capital on a QoQ basis.

- During Q3 FY26, the Company delivered a healthy 17.4% yoy growth in consolidated revenue, supported by strong demand across core businesses
- Continued focus on working capital cycle resulting in a 19-day improvement in net working capital on a qoq basis
- Operating cash flow remained robust, with CFO at 149% of EBITDA.

Plastic Division

- The Plastic division delivered a strong 18.3% yoy revenue growth, supported by healthy demand in the domestic market and substantial growth in overseas plastic business. The Company continues to expand its product portfolio in international markets, which is helping drive growth and customer diversification.

- EBITDA margins declined to 7.2% during the quarter, primarily due to volatile RM prices.

- Working capital efficiency improved significantly on a QoQ basis.

Agro Processing Division

- The Agro Processing division reported 18.5% yoy revenue growth, led by strong performance in international markets, both Europe and the US.

- EBITDA margins declined primarily due to pressure on margin in the overseas business. In India, EBITDA improved, and continued to maintain double-digit EBITDA margins.

- Net working capital improved by 18 days on a QoQ basis, supported by better inventory and receivables management.

Business Overview : 9M FY26

Hi-Tech Division

- The Hi-Tech Agri division delivered strong revenue growth of 26.3% yoy, driven by robust performance in the retail segment and Solar Agri Pumps. Export revenues remained broadly at last year's levels, impacted by tariffs and ongoing geopolitical changes.
- The division achieved a substantial improvement of around 40 days in net working capital on a yoy basis.
- The segment remains well positioned to capture future opportunities in Retail, Solar Agri Pump, Tissue Culture and Export.
- For the nine-month period ended FY26, the Company reported 13.5% year-on-year growth in consolidated revenue, supported by strong momentum in the Hi-Tech Agri business and steady performance across other segments.
- Cash generation remained healthy, with CFO at 78%, and the Company achieved a 15-day improvement in net working capital on a year-on-year basis.

Plastic Division

- The Plastic division recorded 3.9% yoy revenue growth despite deflationary RM prices.
- Overseas plastic business reported strong growth.
- EBITDA margins declined during the period, primarily due to volatile RM prices. Despite this, the division maintained stable operations and continued to strengthen its export footprint.

Agro Processing Division

- The Agro Processing division reported 10.6% yoy revenue growth, driven by growth in international markets. The India business saw lower revenues due to lower raw material prices, although it continued to maintain healthy EBITDA margins.
- The division delivered a substantial improvement of 44 days in net working capital on a yoy basis.

Management Commentary

“Leave this world better than you found it.” – Shri. Bhavarlal H Jain

Q3 FY26 has been a strong quarter for the Company, with 17.4% yoy revenue growth across all business segments, reflecting double-digit growth momentum. The recent reduction in GST rates has supported demand and aided revenue expansion across all segment. Our continued focus on execution and cash discipline has resulted in a significant improvement in the working capital cycle, which is clearly reflected in robust cash generation, with cash flow from operations at 149% of EBITDA during the quarter.

For the nine-month period of FY26, we have sustained a healthy 13.5% growth in revenues, while also delivering margin improvement on a yoy basis. This reflects the benefits of our strategic shift towards retail business, improved operating efficiencies, and disciplined cost management.

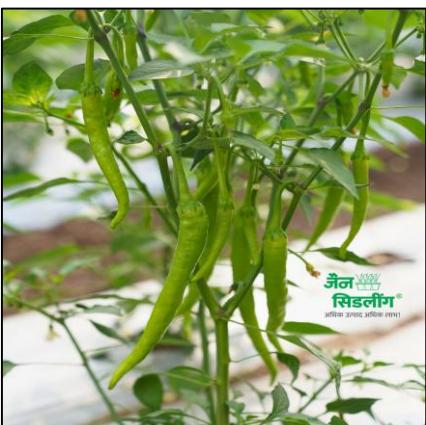

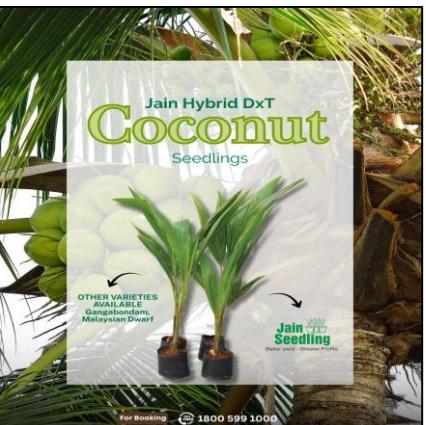

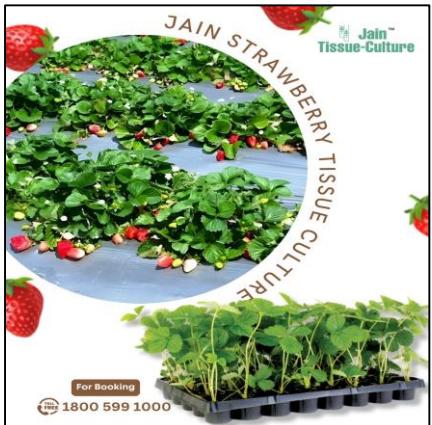

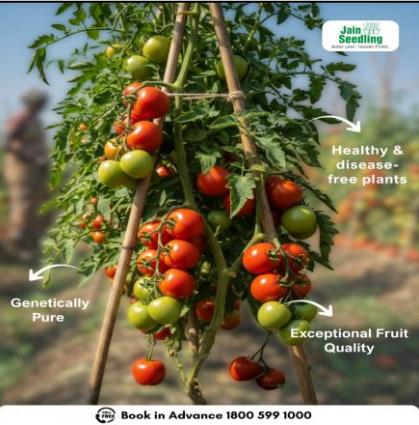

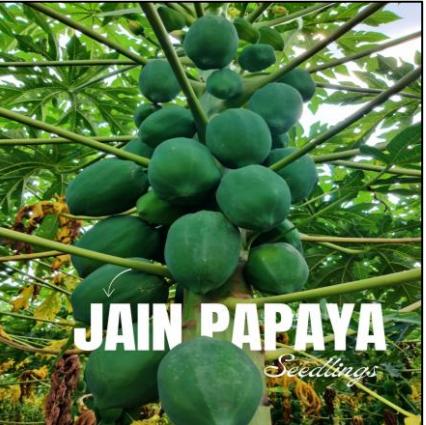

The Union Budget is encouraging for the manufacturing sector and provides a stable backdrop for growth. Increased government spending on infrastructure is expected to benefit our piping businesses, while continued policy focus on Solar Agri Pumps and rural development should support demand. With rising consumption trends, we see a supportive environment for sustained growth.

As mentioned in the previous quarter, our agro-processing arm JFFFL has partnered with a leading beverage brand to set up a bottling facility, with revenue contribution expected from Q4 FY26. JFFFL entered into JV with leading international company for tomato puree manufacturing in India.

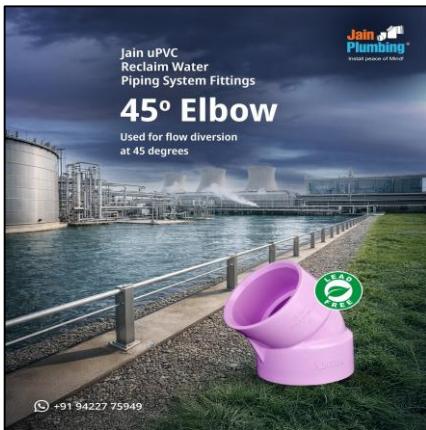

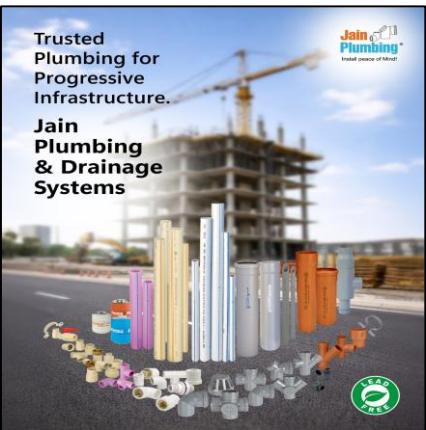

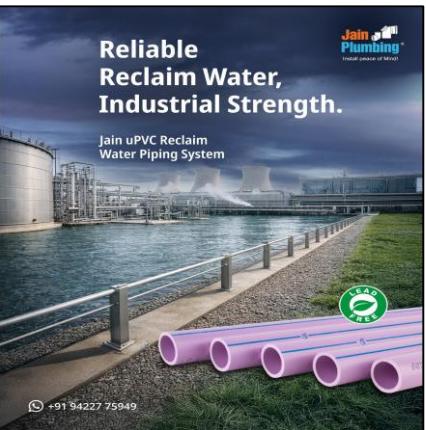

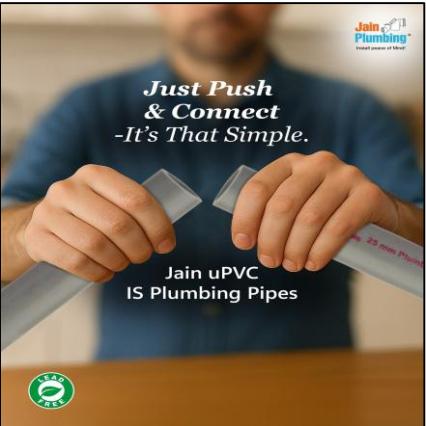

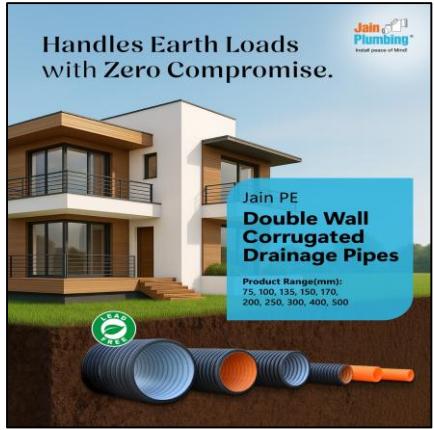

While global volatility remains a challenge, we are confident in our diversified business model and execution capabilities. We expect Q4 FY26 to witness improved traction for piping business and remain focused on delivering sustainable growth and value creation for our stakeholders.

Awards

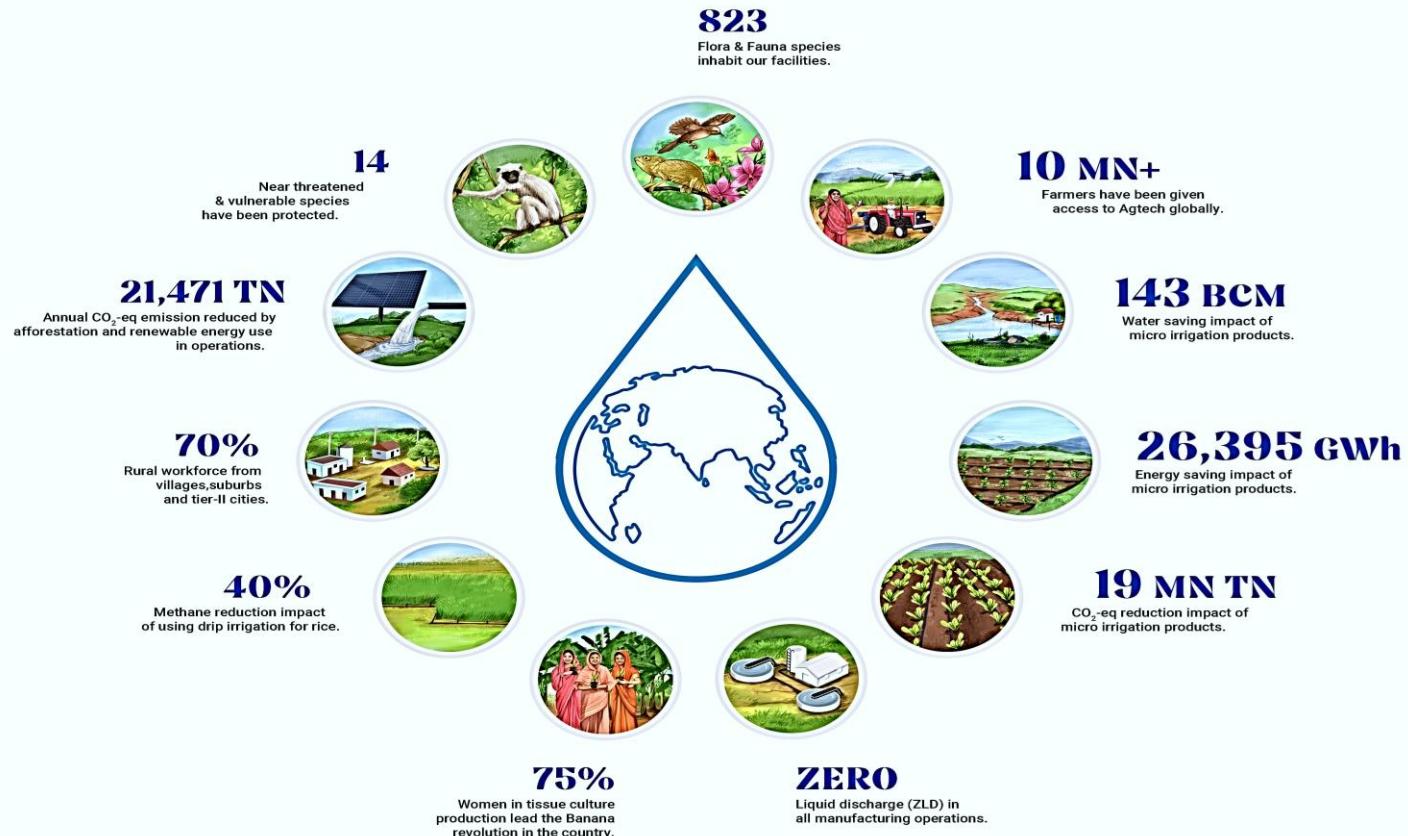

Jain Irrigation Shines with Eight Export Excellence Awards from PLEXCONCIL

Mumbai, Reaffirming its leadership in the global micro-irrigation and plastics industry, Jain Irrigation Systems Ltd. has been honoured with eight prestigious Export Excellence Awards by the Plastics Export Promotion Council (PLEXCONCIL) for the years 2023–24 and 2024–25. These accolades span across key categories including drip irrigation, PVC foam sheets, fittings, and pipes & hoses, marking a remarkable hat-trick of wins for the organisation.

The awards were presented by Union Commerce and Industry Minister Shri Piyush Goyal at a grand ceremony held at The Leela, Santacruz, Mumbai. Accepting the honours on behalf of the company was Mr. Anil Jain, Vice Chairman & CEO, accompanied by senior leaders Dr. B.K. Yadav, Dr. Anil Patil, V. M. Bhat, S. N. Patil, Rajendra Mahajan, K. B. Sonar, Ms. Suchita Kirawant, and Ms. Deepa Shivde.

ESG Impact

CSR Update

Jain Irrigation Systems Limited (JISL) has actively engaged in various Corporate Social Responsibility (CSR) activities this financial year, focusing on rural development, education, sports, environmental conservation, hunger eradication and pandemic support. Below are the key highlights of our CSR initiatives:

- a) Rural Development Activities through Ba-Bapu 150 Project:** Under the Ba-Bapu 150 initiative, inspired by Mahatma Gandhi's vision of "Gram Sarvodaya" (self-sustained village and social inclusion), we have launched 150 rural development projects. The first phase started in 22 villages in the Jalgaon district. Our key focuses are promoting water, sanitation, and hygiene (WASH), and ensuring safe drinking water for remote and rural communities. Additionally, we are driving entrepreneurship, watershed development, FPO, and sustainable agriculture.
- b) Ensuring Environmental Sustainability:** Environmental sustainability, natural resource conservation, and protection are core to our mission. We're committed to mitigating climate change impacts, being among the few organizations in the country certified for GHG accounting and mitigation actions. Our efforts include a voluntary plantation program on World Environment Day and supporting the Maharashtra Government's afforestation mission.
- c) Promoting Education:** Anubhuti English Medium School, our flagship project envisioned by Late Shri Bhavarlal H. Jain, provides quality English medium education to underprivileged children in Jalgaon. Initially starting with 180 students in Classes I and II, it now serves over 500 students from Classes I to IX. Anubhuti offers facilities comparable to the best schools in the region, with specially designed classrooms and furniture. The school provides nutritious food three times a day, as well as clothes, books, educational material, and timely medical attention to all students. This initiative reflects Anubhuti's educational principle of balancing individuality with the need for interdependence.

CSR Update

- d) Promoting Sports:** Our Jain Sports Academy (JSA), under the BKJMF trust, coordinates and handles all sports activities, currently training over 450 players across various sports. The academy offers training and conducts competitions in traditional Indian games like kho kho, volleyball, table tennis, badminton, swimming, cricket, trekking, chess, cycle racing, skating, marathon, carom, basketball, and football. Additionally, we host inter-school and inter-district sports events with around 750 students participating. Jain Sports Academy boasts a Corporate Cricket Team, which has won the prestigious 'A' Division of the Times Shield Cricket Tournament. Many of our players are part of national teams across various sports, including our national carom players who represented India and won the World Championship in South Korea. Most of our spending goes towards sports materials and infrastructure, coaching fees, and supporting budding sportsmen and their coaches.
- e) Healthcare:** Kantai Netralaya, supported by JISL's Bhavarlal Kantaibai Jain Multipurpose Foundation (BKJMF) and managed by Poona Blind Men Association (PBMA), aims to eradicate preventive blindness and make Jalgaon a cataract-free district. Providing comprehensive quality eye care without discrimination, Kantai Netralaya conducts regular outreach programs in rural areas, offering free eye care treatment to poor and deprived patients. This year, the goal is to complete 150 Squint Removal Surgeries, with 60 of them free of cost.
- f) Hunger Eradication:** Since the start of the COVID-19 pandemic, JISL has been providing food to migrating laborers, labor colonies, and other needy residents in Jalgaon. During the peak of the pandemic, the company distributed 14,000 meals per day, and through the ongoing "Snehachi Shidori" project, they still distribute 1,400 meals daily to the poor, deprived, and homeless in Jalgaon. Anyone in need can access these food parcels free of charge. To date, the project has distributed over 1.5 million food parcels.
